COMPANY PROFILE

About Aavid Systems

We Design, Engineer, Install and Service robust Commercial IT Foundations including Structured Cabling and Network Infrastructure. These systems provide the fundamental infrastructure for telecommunications, audio/video, security/surveillance, access control and automation systems.

With over 20-years of real world experience, we design from the top of the OSI model down utilizing best-practice methodology. We begin with the required Application(s) ensuring top to bottom compatibility with all systems to be implemented today and moving forward for many years to come.
